## Work Experience

**ONBO**

New Delhi, India (Remote)                                    Jun 2021 –Sep 2021

Intern Front-end Developer             Vue.js, React.js, JavaScript, HTML, SCSS, CSS, Git

- ONBO is a startup, developing a web application in the human resources domain.
- As a Front-end Developer, I have worked with Vue and React to create parts of the component-based web application. I worked with both stateful and stateless components in React.
- I worked on integrating the Toast UI Calendar API to create a planner cum calendar with real-time current and upcoming task updates.
- Responsibilities included, but were not limited to, taking designs from Figma and making pixel perfect pages and integrating them with APIs, where needed.

## Volunteer Experience

**Marine Technology Society – Autonomous Underwater Vehicle Club**

Aligarh, India                                               Nov 2020 – Present

Computer Team Member                        Python, OpenCV, ROS, Gazebo, Git

- MTS – AUV Club is a collegiate club working on developing underwater vehicles for various national and international competitions.
- As a Computer Team Member, I have worked with my team for the Virtual Online Robotics Competition, setting up ROS on a Linux machine and running a Gazebo Simulation.
- We continuously work on learning new technologies and implementing them on our vehicle.

## Projects

**Socket Cam**                                                   Python, OpenCV

- A client and server script in Python that transfers video over LAN.

**Task Manager**                                      HTML, CSS, JavaScript, Vue.js

- A simple task manager UI that allows addition and deletion of tasks.
